This exciting program offers a unique theatrical experience for children. Each morning, children engage in fun and exciting classes in the arts. In the afternoon, children collaborate with professional artist/educators to create an original musical production. They work together writing a script, learning dialogue and choreography, designing sets and costumes, and rehearsing their work. Each two-week program culminates with a performance of their original show for families and friends. Every child has a chance to develop his/her talents in a supportive, non-competitive environment where creativity and teamwork are valued.

The program is geared for children ages 7–13.

The program runs 8:30 AM–4:00 PM, Monday–Friday for children ages 7–13 at Lincoln School in Brookline and is a part of the Brookline Adult & Community Education Smart Summers Programs.
